

research, teaching and administrative duties of a professor, was the acknowledged leader of the research program in nuclear test ban verification, and the sole academic staff member responsible for leading teaching and research programs in earthquake seismology.

Dr. Chun has been one of Canada's most productive geophysicists, with 26 research publications in internationally prestigious journals and over 1.4 million dollars in research grants; more than most geophysicists are awarded in a lifetime. Despite his record of achievements, Dr. Chun was passed over four times in tenure-stream competitions. In 1992 the Physics Department refused routine approval for Dr. Chun's grant applications, effectively halting his career. In 1994, Dr. Chun's labs were shut down and he was evicted by campus police with only three hours notice."¹

After a difficult and protracted struggle, Dr. Chun has since been recognized by the University with an appointment to Assistant Professor and Full Member of the Graduate Faculty. For more information about Dr. Chun and the Committee in Support of Dr. Chun go to:

The Library

The Dr. Chun Resource Library exists as a space for community members and University of Toronto students to access factual, critical, and alternative materials that facilitate resistance to oppression among and between diverse communities.

The Library contains videos, books, magazines, journals, zines, audio tapes, and vertical files on a wide variety of issues dealing with social justice, anti-racism, feminism, anti-ableism, environmentalism and other issues.

Membership is free. To join, please bring two pieces of ID with you, with one bearing your current address. (A recent piece of mail will do for address ID).

Lending Policy:

Item Type	Loan Period	Fine	Maximum Fine
Books, Gov Docs, Reports	2 weeks	\$0.25/day	\$10.00 per item
Journals, Tapes, Videos	2 days	\$2.00/day	\$10.00 per item
Vertical Files	3 hours	\$1.00/hour	\$10.00 per item

Items can be renewed up to three times, by calling us during Resource Centre open hours (see front cover).

Library Volunteers from the community and from the university are encouraged and welcomed. Donations of money and materials which fit into the above social justice mandate are also welcome. The library operates on a small budget and welcomes community support, input and recommendations.

The Library is wheelchair accessible, and there is a children's play area available for those who need it (parents/caregivers must provide their own supervision for children).

Though based in the Women's Centre, men are welcome and encouraged to use the Library.

Dr. Chun's Struggle

The Dr. Chun Resource Library was named in recognition of Dr. Kin Yip Chun, a U of T researcher who was wrongfully denied a tenure track position at the University of Toronto, after serving for ten years in the Department of Physics. The Committee in Support of Justice for Dr. Chun wrote in 1998:

"While his initial appointment in 1985 was that of Research Associate, from the outset he carried out all the
