

NOTES FOR BOWDEN T.V. TAPES

1. There's one page missing from long version of report. I've recreated the missing segment as best I can.
2. Circled numbers are on the tapes. Uncircled number or circled numbers with an X through them, are not.
3. When a clip might have some use in creating a video, I've underlined it. In some cases I've added notes.
4. Adam Vaughn's coverage on CBC , especially around injunctions, is particularly good.
5. Suggestions for further edit:-
 - a) Pull all French media out and put on single video so we can have it viewed.
 - b) Pull all other ethnic media out onto 2nd video.
 - c) Divide remaining English by section for easier edit. For example:\
all rally and march on one video
all job action day on one video
all follow up on one video
