Dear Friends,

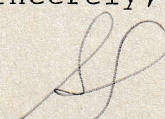

I am writing on behalf of the Ontario Public Interest Research Group (OPIRG) in Toronto. We have recently become aware of the Telescope Project in Arizona; since the University of Toronto is a potential contributor to this project, we are very interested in the issue. We are in the process of gathering current information to help us in lobbying the University and the Astronomy Department.

We understand that the Apache Coalition is in the position to help us with this. We would very much like to know:

- a) the addresses of any other helpful contacts in either Toronto or the U.S.
- b) a list of all contributors or potential contributors.
- c) any updates or current information on the Telescope Project.
- d) any advice you might have on who to lobby, how, or any other relevant information.

If you have access to any of the information above, we would really appreciate it if you could pass it along to us.

Sincerely,

Susan Sakamoto
